ORIGINAL PROCESS. ORIGINAL SOLUTIONS.

The Mexican Original® brand has preserved an authentic, old-world process handed down from generations resulting in distinct, intense flavors. We maintain a focus on quality, functionality, freshness and flavor to boost your bottom line. As cooking methods have adapted to industrial-sized processes, we've kept core old-world methods in place. Mexican Original® corn products are produced with an authentic cooking process, which creates an intense corn flavor that cannot be matched.

The percentage of operators that menu Tortillas is predicted to show above average penetration growth for the next two years¹
