# Serving Your Mission

You work hard to feed our future day in and day out. Keeping students nourished and ready to learn is a tough endeavor, but we are here to help because your mission is our mission, too. We are continually developing resources to help support your nutrition program and make your mission a reality.

We want to help, so tell us how we can serve you.

-Tyson K-12 Team

# Commodity Calculator

Available through **K12 FoodService** to help plan out your commodity dollars for the school year.

## Independent Drawdown

Get more out of your commodity dollars

### Key Benefits

- Take a discount on white & dark blended chicken products when you do not have both white & dark commodity pounds available

- Gives you the ability to better balance your white & dark commodity pounds

- Maximizes your commodity dollars to provide you with more servings

### How it Works

1. Place an order for a commodity-eligible product that contains both white & dark meat chicken

2. Order goes to K12FoodService.com to verify commodity pounds are available in your account

3. One of four things will happen depending on what pounds are available:

① **WHITE & DARK** available

(PTV discount dollars given for **BOTH**\*)

② **ONLY WHITE** available

(PTV discount dollars given for **WHITE**\*)

③ **ONLY DARK** available

(PTV discount dollars given for **DARK**\*)

④ **NONE** available

(**NO** PTV discount dollars given)

\*White and Dark commodity pounds and PTVs (Pass Through Values) are separated out on the SEPDS for products containing both White and Dark meat chicken. Commodity pounds are drawn down from account when the PTV discount is applied.
